

T-ONE COACH

Medical Device

T-One Coach is a 4-channel electrotherapy device recommended for occasional or amateur athletes for trauma prevention and muscle strengthening.

CND Z120601
 REP 1456070/S
MEDICAL DEVICE CLASS IIa
 T-ONE COACH is a medical device CE0068

DIMENSIONS
 150 x 90 x 35 mm

POWERED BY
I-TECH
 MEDICAL DIVISION

KIT

- T-One Coach
- 4 connection cables (8 connectable electrodes)
- Self-adhesive square electrodes
- Self-adhesive rectangular electrodes
- Self-adhesive round electrodes
- Ni-MH rechargeable battery
- Battery charger
- User manual
- Electrodes position manual
- Carrying bag

TECHNICAL FEATURES

- Four independent channels unit (up to 8 connectable electrodes)
- Constant current generator (can guarantee a constant current even when skin condition changes, the device automatically stops in the event of accidental electrodes disconnection)
- Compensated biphasic square wave: current quantity from positive pole to negative one is constant to avoid polarization effect
- 2+2 users programs
- Backlight graphic colour display
- User feedback: the device recognizes patient connection
- Soft-touch easy to use keyboard
- On – line guide on display for fast instructions;
- 4,8 V rechargeable battery pack;
- Personalized programs for man and woman;
- Adjustable intensity from 1 to 120 mA,
- Frequency 1 ÷ 150 Hz
- Width impulse 20 ÷ 300 µs
- Preadjusted time for each program
